

**Reflection hw-03**

- a. What is your biggest takeaway message from each of the tasks for this assignment?
  - i. For the website portion, our biggest takeaway is strengthening our skills in HTML/CSS and JavaScript. For the JavaScript portion, we learned how to create a button that would go back and forth, and change if the title of the website was italicized or not. For the writing/analyzing portion, we were able to apply our knowledge from class by interpreting data.
- b. Did both of you put your best effort into this assignment? If not, what obstacle got in your way and how can you avoid it in future assignments?
  - i. I believe that we both put our best efforts into this assignment. We worked well together, and were able to tackle any obstacles that we faced.
- c. Name one contribution your partner made to this assignment that you are proud of
  - i. Jackie: Kate created our personal visualization, which I thought was very pleasing to the eye and very well done.
  - ii. Kate: Jackie laid out our whole page and I think she did a great job matching the reference given.
